

PostFinance Checkout Flex

Combine with a terminal and
use this solution for in-store sales now

PostFinance Checkout Flex is your integrated payment solution for online and in-store payments

PostFinance Checkout Flex is the flexible Payment Service Providing solution with lots of great functions for your online shop. PostFinance Checkout Flex can now also be used to make payments at physical points of sale.

Why choose PostFinance Checkout Flex?

PostFinance Checkout Flex gives you the widest selection of payment methods. You simply integrate the required option and negotiate the prices yourself with the acceptance partners. This gives you considerable flexibility.

You also enjoy attractive conditions and gain access to many useful payment processing functions.

With just a few clicks, you can manage your online shop and terminal payment solution yourself in the Checkout back office tool and always maintain a clear overview thanks to the overall view of all transactions in the online shop or at the physical location. You can also configure your terminals directly in the back office tool and access end-of-day settlements as well as sales documents.

Which payment methods are available?

All common payment methods can be accepted online and in store ¹:

- PostFinance Card and PostFinance e-finance
- Visa, Mastercard, American Express
- TWINT
- Others on request

The following additional payment methods can be flexibly integrated into your online shop ¹:

- PayPal, Visa, Mastercard
- PowerPay (MF Group invoice)
- Diners Club, Discover, JCB, Union Pay

The following additional payment methods can be used for payments at the terminal ¹:

- Reka, WIRcard and other popular customer cards
- Mobile payments: Apple Pay, Google Pay and Samsung Pay

¹ After conclusion of a contract with the respective partner.

The benefits of PostFinance Checkout Flex at a glance
